Click the “Boss Gauntlet.exe” to launch the game.

3)

Click “Play” to play, you can select levels to try out later bosses if you can’t defeat them. Options currently don’t do anything.

4)

You are now playing the game! At the top left is your health and the bottom right is the boss' health.

To attack you **Left Click** (Or press a button on your controller).

To teleport you **Right Click** (Or press a button on your controller).

If you teleport when an active hitbox is within a close range of your character you'll gain bonus damage and become invincible to enemy attacks for 1 second. Have fun!
